

Safety Tips for Your Pets During Thanksgiving

Foods pets should avoid

- ⊗ Nuts
- ⊗ Butter and other fats
- ⊗ Stuffing
- ⊗ Raisins, currants, grapes
- ⊗ Pie
- ⊗ Garlic, chives, onions, scallions
- ⊗ Gravy
- ⊗ Cranberry sauce
- ⊗ Candied sweet potatoes or yams

Keep pets away from unsupervised food as they may be tempted by food on the table and countertop. Talk to your veterinarian about Thanksgiving treats suitable for your pet.

Make sure your pet has visible ID tags and a microchip with updated information in case they get loose.

Have a back-up emergency plan for your pet in case your veterinarian is unavailable on holidays.

If your pet becomes stressed out by extra noise and holiday guests, ensure they have a quiet and comfortable room away from the festivities.

Chocolate toxicity in pets significantly increases around the holidays as we indulge in sweet treats. If your pet accidentally indulges in chocolate, contact your veterinarian immediately.
